Release CA: Week 4 During Class

Due: Week 9 – Saturday 16th Of November@6pm

Lisa Murphy

Eugene McLaughlin

Web Design and Client-Side Scripting

Individual CA

Weight: 40%

Instructions: Create a 3-page website on the Garden Shop. See below for assignment details.

Assignment Details

THE GARDEN SHOP.IE

Create a new website for **thegardenshiop.ie** using their logo.

The website should contain three pages in total: Home>Garden Plants>Contact us

- **Home Page:** You should consider the colour scheme for your website and keep it consistent throughout. The Home page should include an introduction to the site with some family history.

- **Garden Plants:** The plants page should include a minimum of 20 products. Consider using Bootstrap to display the products.

- **Contact us:** Validation should be included to check for a valid email address. Consider using a drop-down list for options for the customer to choose from: Wrong order, query about product etc.

- The website must be responsive.

Description	Marks
Home Page	10
Garden Plants	30
Contact Us	30
Responsive	10
Wow Factor (Fancy or additional jQuery/JS, Fancy form formatting)	10
Good coding practice (External Scripts / Indentation / Commenting etc)	10

Submission details:

- Submit files in a zipped folder via the link provided on Moodle. Please submit your project by the date specified on the Moodle page.
